Editors-in-Chief:

Siu-wai Leung (China), David Robertson (United Kingdom) and Dietlind Gerloff (United States)

***Automated Experimentation* is an open access journal that encompasses high-quality research on all aspects of the automation of clusters of experiments for high throughput, particularly (but not exclusively) in the fields of biomedicine and biomedical informatics.**

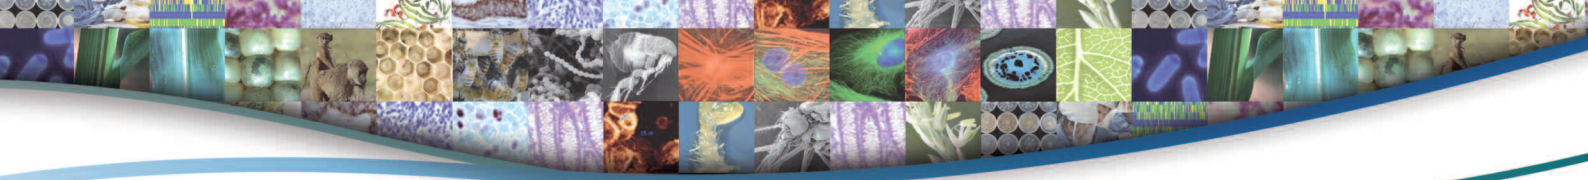

Automated Experimentation features the methodologies, protocols, and significant results of automated experiments for easy sharing among laboratories worldwide.

The journal considers the following article types: research articles, reviews, commentaries, methodology articles and software articles. For further details, see www.aejournal.net/info/about/.

Reasons for publishing in *Automated Experimentation*:

- All articles published in the journal are open access; universally accessible online without charge.
- High visibility for your work - anyone with Internet access can read your article, free of charge.
- Included in PubMed - making your work easy to find, read and cite.
- Articles are published immediately upon acceptance.
- Authors retain the copyright of their articles.
- Electronic submission and peer-review makes the whole process of publishing your article simple and efficient.
- Publishing online means unlimited space for figures, extensive datasets and video footage.
- Professional formatting meets the standards expected by researchers.
